

Table of Contents

1. Atmospheric data assimilation schemes, analysis and initialization, data impact studies, observing system experiments

Author	Paper Title	Country	Pages
L. Duc, T. Koruda, K. Saito and T. Fujita	Data assimilation experiments of Myanmar cyclone Nargis based on NHM-LETKF	Japan	01-03
Y. Ikuta	Radar reflectivity assimilation in JMA's operational meso-analysis system	Japan	01-05
T. Ishibashi	Simplified basic state update in the JMA global 4D-Var	Japan	01-07
T. Kadowaki and K. Yoshimoto	A new inner model with a higher horizontal resolution (TL319) in JMA's Global 4D-Var data assimilation system	Japan	01-09
M. Kazumori	Assimilation experiments involving surface-sensitive microwave radiances in JMA's global data assimilation system	Japan	01-11
M. Kazumori and H. Murata	Initial assessment of FY-3A microwave temperature sounder radiance data in JMA's global data assimilation system	Japan	01-13
T. Kuroda, T. Fujita, H. Seko and K. Saito	Construction of Mesoscale LETKF Data Assimilation Experiment System	Japan	01-15
N. Saint-Ramond, A. Doerenbecher, F. Rabier, V. Guidard, N. Fourrié	Forecast sensitivity to observations at Météo-France Application to GPS radio-occultation data	France	01-17
K. Saito, Y. Shoji, S. Origuchi, L. Duc and H. Seko	GPS TPW Assimilation with the JMA Nonhydrostatic 4DVAR and Cloud Resolving Ensemble Forecast for the 2008 August Tokyo Metropolitan Area Local Heavy Rainfalls	Japan	01-19
H. Seko, S. Kogure and T. Tsuda	Observation System Simulation Experiments of Quasi-Zenith Satellite	Japan	01-21
H. Seko, K. Saito, O. Suzuki and A. Adachi	Impacts of the low-level convergence data on the local heavy rainfall	Japan	01-23
H. Seko, T. Tsuyuki and K. Saito	Improvements of the nested LETKF system - Impacts of GPS water vapor data and synergistic effects of GPS water vapor data and wind data -	Japan	01-25
T. Tsuyuki	Data assimilation in a two-scale model with Kalman filters	Japan	01-27

Table of Contents

2. Data sets, diagnostic and dynamical investigations, statistical post-processing , multi-year reanalyses and associated studies

Author	Paper Title	Country	Pages
F. Chen, B. Geyer, H. von Storch and M. Zahn	Radar reflectivity assimilation in JMA's operational meso-analysis system	Germany	02-03
L. Duc, K. Saito and H. Seko	Verification of high resolution ensemble forecasts using the 4-dimensional Fractions Skill Score	Japan	02-05
M. Harada and Y. Takaya	Development of Extreme Weather Warning Products with JMA One-month Ensemble Prediction System	Japan	02-07
I.I. Mokhov, A.R. Lupo and M.A. Prokofyeva	Blockings Activity in the Northern Hemisphere: Tendencies of Change for Last Decades	Russia	02-09
I.I. Mokhov and N.A. Nikitina	Dynamics of Atmospheric Centers of Action	Russia	02-11
A. Muraviev and I. Kulikova	Reanalysis data validation using the annual variation of daily climatic characteristics as compared to station observations	Russia	02-13
F. Rabier, S. Cohn, P. Cocquerez, A. Hertzog, L. Avallone, T. Deshler, J. Haase, T. Hock, A. Doerenbecher, J. Wang, V. Guidard, J-N. Thépaut, R. Langland, A. Tangborn, G. Balsamo, E. Brun, D. Parsons, J. Bordereau, C. Cardinali, F. Danis, J-P. Escarnot, N. Fourrié, R. Gelaro, C. Genthon, K. Ide, L. Kalnaj, C. Martin, L-F. Meunier, J-M. Nicot, T. Perttula, N. Potts, P. Ragazzo, D. Richardson, S. Sosa-Sesma and A. Vargas	The Concordiasi field experiment over Antarctica: first results from innovative atmospheric measurements	France	02-15
J.A. Screen and I. Simmonds	Arctic warming and the trend from snowfall to rain	Australia	02-17
A. Shimokobe, H. Umezu and S. Moriyasu	WGNE Intercomparison of Tropical Cyclone Track Forecasts from Operational Global Models and Regional Models	Japan	02-19
I. Simmonds	Trends in the behaviour of 850 hPa fronts in the southern extratropics	Australia	02-21
I. Simmonds, K. Keay and J.A.T. Bye	Southern Ocean atmospheric fronts identified in ERA-Interim	Australia	02-23

Table of Contents

Author	Paper Title	Country	Pages
L. Xia, H. von Storch and F. Feser	A Study of Quasi-millennial Extratropical Cyclone Activity Using Tracking and Clustering Methods	Germany	02-25

3. Computational studies including new techniques, the effect of varying model resolution, parallel processing

Author	Paper Title	Country	Pages
R.J. Purser and M. Rancic	Conformal Overset Grids	USA	03-03
H. Yoshimura	Development of a nonhydrostatic global spectral atmospheric model using double Fourier series	Japan	03-05

4. Parameterization of important atmospheric and surface processes, effects of different parameterizations

Author	Paper Title	Country	Pages
J-F. Geleyn and P. Marquet	Moist-entropic vertical adiabatic lapse rates: the standard cases and some lead towards inhomogeneous conditions	France	04-03
S. Kanada and A. Wada	Effects of atmospheric planetary and surface boundary-layer schemes on simulations of intense tropical cyclones	Japan	04-05
T. Kanehama	The impact of a non-orographic gravity wave drag parameterization scheme on the middle atmosphere in JMA's Global Spectral Model	Japan	04-07
T. Kato	Dependency of horizontal and vertical resolutions, and turbulence schemes on snowfall forecasts: Part II Differences of vertical profiles	Japan	04-09
H. Kawai	Results of ASTEX and Composite model intercomparison cases using two versions of JMA-GSM SCM	Japan	04-11
T. Komori and K. Yoshimoto	Evaluation from a Perspective of Spin-down Problem: Moistening Effect of Convective Parameterization	Japan	04-13
R. Nagasawa	The Problem of Cloud Overlap in the Radiation Process of JMA's Global NWP Model	Japan	04-15

Table of Contents

Author	Paper Title	Country	Pages
A. Shimokobe	Improvement of the Stratocumulus Parameterization Scheme in JMA's Operational Global Spectral Model	Japan	04-17

5. Development of and studies with regional and smaller-scale atmospheric models, regional ensemble, monthly and seasonal forecasting

Author	Paper Title	Country	Pages
S. Guedj, F. Karbou and F. Rabier	Improved assimilation of SEVIRI radiances over land in meso-scale models using Land Surface Temperature retrievals	France	05-03
T. Hara, K. Kawano, K. Aranami, Y. Kitamura, M. Sakamoto, H. Kusabiraki, C. Muroi and J. Ishida	Development of the Physics Library and its application to ASUCA	Japan	05-05
C. Marsigli, A. Montani and T. Paccagnella	Testing a multi-model approach for providing boundary conditions to a regional ensemble	Italy	05-07
A. Montani, C. Marsigli and T. Paccagnella	Impact of soil-moisture initialisation on the quality of short-range COSMO-LEPS forecasts	Italy	05-09
K. Ono	Preliminary Results of Mesoscale Ensemble Prediction with Stochastic Parameterization	Japan	05-11
S. Origuchi, K. Saito, H. Seko and T. Kuroda	Cloud resolving ensemble experiment of the 2011 Typhoon "Talas"	Japan	05-13
H. Seko, Y. Kodama and T. Tsuda	Ensemble forecast experiments of 'Yamase' that occurred on 31st July 2011	Japan	05-15
H. Seko, O. Suzuki, K. Saito and T. Miyoshi	Ensemble forecast experiments of thunderstorm that occurred in the Kanto Plain on 13th Oct. 2010	Japan	05-17
V. Shnaydman, L. Berkovich and J. Tkacheva	The predicted quantitative relations between the thermal stratification, wind shear and turbulence parameters	USA	05-19

6. Developments in global forecast models, case studies, predictability investigations, global ensemble, monthly and seasonal forecasting

Author	Paper Title	Country	Pages
L-P. Caron, C.G. Jones and F.J. Doblus-Reyes	Atlantic Tropical Cyclone Activity in EC-Earth Full Field Initialized Decadal Forecasts	Sweden	06-03
M. Deque and L. Batte	Flux correction and seasonal predictability	France	06-05

Table of Contents

Author	Paper Title	Country	Pages
M. Hirai, K. Miyaoka, R. Nagasawa and N. Adachi	Update of JMA's One-month Ensemble Prediction System in March 2011	Japan	06-07
T. Komori and A. Shimokobe	Evaluation of the Genesis of Typhoon JANGMI for Modified Convection and Cloud Schemes in JMA-GSM: Comparison with T-PARC Special Observations	Japan	06-09
S. Matsueda and Y. Takaya	Forecast Skill of MJO with the JMA's One-month Ensemble Prediction System	Japan	06-11
Y. Ohta, H. Yonehara and M. Kyouda	Introduction of a Stochastic Physics Scheme for Representation of Model Uncertainties to JMA's Typhoon Ensemble Prediction System	Japan	06-13

7. Global and regional climate models, sensitivity and impact experiments, response to external forcing

Author	Paper Title	Country	Pages
M.M. Arzhanov	Soil subsidence in the 21st century simulated using anthropogenic climate change scenarios	Russia	07-03
S.N. Denisov	Estimations of hydrate stability in Baikal	Russia	07-05
H. Kawai	Mechanisms of negative cloud radiative feedback of stratocumulus and stratus in JMA-GSM SCM	Japan	07-07
V.C. Khon, I.I. Mokhov and F.A. Pogarsky	Climate change in Arctic and sea wave activity in the 21st century from model simulations	Russia	07-09
S. Langford and D. Noone	Analysis of CMIP5 historical runs for south west US precipitation	USA	07-11
I.I. Mokhov, M.G. Akperov and A.A. Timazhev	Summer Blockings in Euro-Atlantic Region from Model Simulations	Russia	07-13
K.E. Muryshev, A.V. Eliseev, V.A. Gorchakov, V.A. Ryabchenko and I.I. Mokhov	Oceanic carbon uptake in the simulation with the IAP RAS global climate model	Russia	07-15
V.P. Parkhomenko	Global and Indochina Climaye Modelling	Russia	07-17

8. Development of and advances in ocean modelling and data assimilation, sea-ice modelling, wave modelling

Author	Paper Title	Country	Pages
B.S. Strukov, A.A. Zelenko, Yu.D. Resnyansky, S.L. Martynov	A System of Wind Wave Forecasting in the World Ocean and Seas of Russia. The System's Structure and its Main Constituents	Russia	08-03

Table of Contents

Author	Paper Title	Country	Pages
B.S. Strukov, A.A. Zelenko, Yu.D. Resnyansky and S.L. Martynov	Verification of the Wind Wave Forecasting System for the Black, Azov and Caspian Seas	Russia	08-05

9. Development of and studies with coupled ocean-atmosphere models

Author	Paper Title	Country	Pages
A. Wada	Numerical simulations of the intensity change of Typhoon Choiwan (2009) and the oceanic response	Japan	09-03
A. Wada	Rapid intensification of Typhoon Roke in 2011	Japan	09-05
A. Wada	Spin-down process caused by vortex-induced sea-surface cooling	Japan	09-07
A. Wada	Oceanic influences for a large eye of Typhoon Talas in 2011	Japan	09-09
A. Wada and N. Kohno	Impact of surface roughness lengths on simulations of Typhoon Fanapi (2010)	Japan	09-11
